August 31, 2007

Dear Brock Nicholson:

We are very pleased that North Carolina is a member of The Climate Registry and we are excited about the organization's growth and success to date. We are on track to begin recruiting corporate and other reporters this fall, and officially open The Climate Registry for business in January. The August Board of Directors Update is attached. Please call if you have any comments or questions.

You may recall that at its Board of Directors meeting in May, the board adopted a budget that included \$1,000,000 in member contributions to help launch the Registry. As part of that fund-raising effort, voluntary invoices were sent out to each state, and the amount was pro-rated to population. The response of members has been gratifying and significant. We have over \$700,000 committed or collected already.

Thank you for your agreeing to support the organization by making payment on the voluntary invoice that we sent you in June. We have not yet received your contribution yet. As a reminder of that pledge, I am enclosing a duplicate copy of the invoice. We need to reach our \$1 million target in order to get The Climate Registry off to a strong start and fulfill the board expectations of setting a gold standard for the reporting and registration of greenhouse gas emissions across North America.

We would appreciate hearing from you on whether you will be able to process a payment to support our efforts. Please feel free to call me (213 891 6922) or Gary Gero (213 891 6921) if you would like to discuss this further or just to let us know when you might be able to process a payment.

Thanks very much for your consideration in this matter.

Warm Regards,

Diane Wittenberg  
For The Climate Registry
