## METHODOLOGY

This probabilistic survey was conducted August $20-21,2023$, with 600 likely general election voters. It has a margin of error of $\pm 3.99 \%$. Known registered voters were interviewed via live calls and SMS. This survey was weighted to a likely general election voter universe.

## ABOUT THE FIRM

Cygnal is an award-winning international polling, pulic opinion, and predictive analytics firm that pioneered multi-mode polling, text-to-web collection, and emotive analysis. Cygnal consistently ranks as the most accurate firm, and clients rely on Cygnal's ability to create intelligence for action. Its team members have worked in 48 states and multiple countries on more than 2,700 corporate, public affairs, and political campaigns.
